---

## Summary

Skilled Software Engineer with expertise in React, TypeScript, Tailwind CSS, Node.js, and Express.js. Experienced in building responsive web applications, integrating APIs, and working with MongoDB & MySQL for backend development. Proficient in Git/GitHub and performance optimization. Passionate about clean, maintainable code and continuous learning.

---

## Technical Skills

**Technical:** C++, Python, MySQL, AWS, REACT, Tailwind CSS, Bootstrap, TypeScript, Git, GitHub, Postman, RESTful APIs, Node.js, Express.js, MongoDB

**Non-Technical:** Teamwork, Leadership, Problem Solving

---

## Education

**SKN College of Engineering, Pune**

2021 - 2025

*Bachelor of Engineering in Computer Science*

**CGPA: 8.03**

- **Technical Courses:** Data Structures and Algorithms, Operating Systems, Database Management Systems, Object Oriented Programming, Computer Networks, Analysis and Design of Algorithms

**DP Mehta Junior College of Arts, Commerce and Science, Lonavala**

2019-2021

*Senior Secondary (Class XII)*

**Percentage: 82.17**

---

## Work Experience

**Frontend Engineer Intern - Devskillshub**

Jan 2024 – Mar 2024

- Developed and maintained high-quality web applications using HTML, CSS, and JavaScript.
- Collaborated with UI/UX designers to create responsive and visually appealing interfaces.
- Optimized web applications for speed and scalability.
- Integrated APIs and backend services in coordination with backend developers.
- Debugged and troubleshooted issues across various browsers and devices.
- Leading frontend optimization, presenting performance strategies, and implementing best practices to improve application responsiveness.

---

## Technical Projects

**Brainwave Application-** [Deploy Link](#) | [GitHub Link](#) | React, Tailwind CSS, Javascript, HTML5, CSS

- Built a fully responsive website with a modern and sleek design.
- Implemented parallax animations, smooth scrolling, and reusable components to enhance the user experience.
- Designed sections like Hero, Services, and Pricing with visually appealing layouts.
- Ensured cross-browser compatibility and optimized performance for smooth interactions.
- Deployed the website with a mobile-first approach, ensuring responsiveness across all devices.

**React Admin Dashboard-** [Deploy Link](#) | [GitHub Link](#) | React, Tailwind CSS, Javascript, HTML5, CSS

- Developed a feature-rich admin dashboard with interactive data visualizations.
- Integrated CRUD operations for efficient data management.
- Utilized Sync fusion components for advanced charts, tables, and widgets.

- Implemented theme support, allowing users to switch between light and dark modes.
- Optimized the dashboard for fast performance and smooth navigation.

**Nike Website** - [Deploy Link](#) | [GitHub Link](#) | *React, Tailwind CSS, Javascript, HTML5, CSS*

- Designed a fully responsive e-commerce website showcasing Nike products.
- Integrated dynamic product displays for a smooth shopping experience.
- Implemented interactive UI elements and smooth animations for better engagement.
- Used React 's component-based architecture for scalable and maintainable code.
- Optimized SEO and page load speed to enhance performance.

**Tic-Tac-Toe** - [Deploy Link](#) | [GitHub Link](#) | *React, Tailwind CSS, Javascript, HTML5, CSS*

- Built a classic two-player Tic-Tac-Toe game with real-time updates.
- Implemented a feature to edit player names dynamically.
- Designed the game with aesthetic UI elements and intuitive controls.
- Used React state management for tracking game moves and turns.
- Ensured responsiveness and smooth gameplay across different devices.

**Place Picker Website** - [GitHub Link](#) | *React, Tailwind CSS, NodeJs, ExpressJs, Javascript, HTML5, CSS*

- Developed an interactive platform for users to select and organize places.
- Implemented a proximity-based sorting algorithm for better location-based recommendations.
- Created a user-friendly UI for seamless navigation and interaction.
- Integrated state management techniques to efficiently handle user-selected locations.
- Ensured fast performance and responsiveness across devices.
